Mahendergarh, Haryana

COURSEWORK / SKILLS

- Data Structures
- OOP Concept
- Database Management
- Operating Systems
- Computer Architecture
- Computer Networks
- Web Development
- Shell Scripting
- Blockchain Technology

Projects

ChitChat — Real-Time Chat Application | *React, Node.js, Express, MongoDB, Socket.IO, JWT, Tailwind*

2025

- Built a full-stack real-time chat application with secure authentication, live messaging, and user presence.
- Secured authentication using JWT with HTTP-only cookies and proper CORS handling.
- Integrated Socket.IO for real-time message delivery and presence updates without page refresh.
- Deployed frontend on Vercel and backend on Render.

HTMF — Hackathon Teammate Finder | *React, Firebase, JavaScript, Tailwind CSS*

2025

- Developed a platform enabling users to discover hackathons, create teams, and find teammates based on skills.
- Integrated Firebase Authentication and Firestore to provide secure access and real-time data management.
- Designed a responsive UI using Tailwind CSS to enhance usability and accessibility.
- Deployed the application on Vercel with secure environment-based configuration.

Portfolio — Personal Portfolio Website | *React, HTML, JavaScript, Tailwind CSS*

2025

- Built a responsive personal portfolio website to showcase projects, skills, and contact information.
- Designed a clean and accessible UI with smooth interactions and consistent layout.
- Integrated a functional contact form with email notifications and deployed the website on Vercel.
